PAA seeks to expand its roster of artists who draw inspiration from working with young people.

Since 2002, Progressive Arts Alliance (PAA) has been bringing learning to life through art by exciting students, teachers, and the general public with dynamic arts programs that integrate art into the curriculum. PAA brings art to the classroom, building collaborative partnerships with teachers in a variety of art forms while providing inclusive and culturally responsive programs. Our specialized group of professional artists creates an environment that helps youth learn, imagine, create and innovate in schools, libraries and after-school programs throughout the community.

We are currently recruiting teaching artists for summer and fall programming. We seek artists with:

- Skills/training and professional experience in any art form
 - Artists who specialize in dance (hip-hop, step dance, culturally specific dance forms) or visual arts (mural design, installation, mixed media, digital animation, graphic design, photography, filmmaking) are especially encouraged to apply.
- Experience working with children
- Strong verbal and written communication skills
- Ability to write lesson plans (for in-school residencies only)
- Experience working collaboratively
- Positive attitude and respect for children and their ability to learn
- On-going commitment to strengthening teaching practice through feedback, professional development, and collaboration
- Ability to perform administrative duties such as lesson plan submission and scheduling
- Bachelor's degree and experience as a teaching artist preferred
- Commitment to arts education and arts integration as an approach to empowering student achievement
